• Why DPGU

Dr. Preeti Global University aims to be an outstanding University at which being a student means uniqueness. We take pride on our quintessence of focusing on helping our students achieve their highest potential, while we thrive to make our University a great place to inculcate high humane values, we do not leave any stone unturned to keep professionalism at high standards and continue to endure them. Since our inception we have been very explicitly uttering the need of high expectation and exceeding limits, for which we pledge to offer all the required endorsement to achieve the goal.

- India currently has largest higher education network in the world.
- The Central and MP Governments are therefore engaged in a massive exercise to increase the knowledge-based skills and employability of the new generation.
- The gross enrolment rate (GER) in the universities has to be raised to 30% in the next ten years.
- It is estimated that the population in the age group of 18 to 24 (relevant age group for higher education) is around 16 crores (160 millions) which is 13% of the population.
- This means that of students will have to be accommodated for various institutions in higher education.
- Lots of private Universities have been established recently, whereas less than 15% of requirement is met.
